DK Brugsanvisning

VIGTIGT! GEM TIL SENERE BRUG

Læs denne vejledning omhyggeligt inden første brug!

ADVARSEL

ADVARSEL Hold altid nøje opsyn med dit barn og sørg for, at barnets luftveje (mund og næse) er frie.

ADVARSEL Få rådgivning af en læge før brug af produktet, hvis din baby er født for tidligt, havde en lav fødselsvægt eller har andre medicinske problemer.

ADVARSEL Sørg for at dit barns hage ikke hviler på brystet, da dette kan hindre åndedrætsfunktionen og forårsage kvælning.

ADVARSEL Undgå risiko for at baby falder ud, ved at placere baby sikkert i bæreselen.

Vær forsigtig, når du laver mad eller gør rent i nærheden af en varmekilde eller varme drikkevarer.

Bæreselen må kun bruges til ét barn.

Denne bæresele er udelukkende konstrueret til, at du bærer dit barn, så det vender ind mod dig.

Din balance kan påvirkes negativt af dine og dit barns bevægelser.

Vær forsigtig, når du bøjer eller læner dig forover, eller til siderne.

Denne bæresele er ikke egnet til brug i forbindelse med sportsaktiviteter, f.eks. løb, cykling, svømning og skisport.

Husk venligst, at barnets risiko for at falde ud af bæreselen er øget, når dit barn bliver mere aktiv og mobil.

OPBEVARING OG PLEJE

Opbevar venligst bæreselen uden for små børns rækkevidde, når du ikke bruger den.

Kontrollér din bæresele jævnligt for slid og skader, inklusive itugåede syninger eller revet stof.

Alle spænder skal lukkes inden vask og ved opbevaring.
